

# Interdisciplinary PhD School on Humanoid Technologies

Author: Giorgio Metta<[giorgio.metta@robotcub.org](mailto:giorgio.metta@robotcub.org)>

Interdisciplinary PhD School on Humanoid Technologies at the University of Genoa and the Italian Institute of Technology

The University Of Genoa, Italy, and the Italian Institute of Technology (IIT) invite applicants for their joint PhD school on Humanoid Technologies (10 fellowships)

IIT ([www.iit.it](http://www.iit.it)) is a Foundation created as an international centre of excellence for scientific research and training in high technology.

The PhD school consists of a three year program, involving training and research activities, and focuses on an interdisciplinary approach combining Robotics, Neurosciences and Nanobiotechnologies addressing methodological and theoretical issues for the design and the implementation of devices and robotics systems with human-like functionalities.

Instructions for applicants and description of scientific themes can be found at <http://www.studenti.unige.it/dottorati>

Applications deadline: July 14th 2005  
The School will start in October 2005, in Genova (I).
